

Front 4Runner coil spring comparison.

1998 Coil on top, 1999 Coil on the bottom. Both are from V6, 4WD and 16" wheel trucks. You can see the 1999 coil has 9 winds and the 1998 coil has 8.

Left and Right 1999 front coils. V6, 4WD and 16" wheel truck.

2001 coils are white/pink and white/yellow, the 1999 coils are blue/yellow and blue pink.

Here you can see the difference in height in the 8 wrap 2001 coils and the 9 wrap 1999 coils.

1999 4Runner coil left and Tundra TRD 4WD coil right. The two coils are the same height but the Tundra coil has a thicker wire.

Tundra coil on the left and Old Man Emu 881 on the right. You can see they are the same height but the Tundra coil has a thicker wire.
